

Club: CIYMS RFC

Project: Installation of new floodlights

Funding source: Biffa Award

Amount awarded: £45,000

Steve James, CIYMS Floodlights Project Co-ordinator, commented: "I don't think there is any doubt that its highly unlikely we would have found a grant funding solution for our Floodlights project without the assistance of the Branch.A tentative visit to the initial workshop really helped us understand how to put forward a viable case and the assistance from David Johnston was absolutely essential in getting the project over the line. The lights will be a major boost to the club and will enable a number of other strands of our Development Plan to move forward. We just wish we'd done it sooner."

For further information and support with grant funding for your club, please contact David Johnston (Club & Community Development Officer) via david.johnston@ulsterrugby.com.
